

SPECIFICATIONS

Product Description: **HIGH PRESSURE SUPPLIED AIR HOOD**
 Part Number: **9911-29 TYVEK®, 9911-29S SARAN**
 Style: **DOUBLE BIB, FULLY DISPOSABLE**

GENERAL DESCRIPTION:

Our NIOSH-approved Fully Disposable Hoods are so unique, they are patented. The hoods are designed and constructed as one piece, with the down tube completely integrated. This makes them maintenance-free, eliminating the need for decontamination of the breathing tube or replacement parts. The entire assembly is disposed of after use. NIOSH approved TC-19C-357.

HOOD:

- Available in Poly-coated DuPont® (PN 9911-29) or Saran-coated Tyvek (PN 9911-29S)
- Splash-resistant hood and bibs
- Patented fully disposable down-tube, no need to clean or decontaminate
- Oversized hood is ideal for workers with beards or goggles
- Double bib design
- Hook and loop underarm straps keep hood from rising
- Unique no-suspension design
- Universal high-pressure hood offered with control valve, cooler and temperature controller

9911-29

9911-29S

DOWNTUBE:

- Multi-layer foam sound dampening system prevents crushing or twisting during use
- Meets stringent NIOSH requirements for sound levels inside a hood
- Located behind the hood, allowing it to be out of the way
- Positioning loop to keep down-tube behind worker

LENS:

- Clear co-polyester (PETG), 15 mil
- Large 8" x 14" (20.3cm x 35.5cm) panoramic viewing
- Distortion-free

RDECOM TESTED:

Third party simulated workplace study showing protection factors at the 5th percentile in excess of 100,000. Ask Allegro for detail test results.

HIGH PRESSURE HOSE: (Use only Allegro approved airline hoses)

Part No	Fitting	Length
9101-25	Foster-Stainless Steel	25' (7.62m) Airline
9101-50	Foster-Stainless Steel	50' (15.24m) Airline
9101-100	Foster-Stainless Steel	100' (30.4m) Airline
