

SPECIFICATIONS

Product Description: **DUCTING, CLEAR LAY FLAT**
 Part Number: **9500-500, 9600-500**
 Style: **LAY FLAT**

GENERAL DESCRIPTION:

Lightweight air ventilation tubing (similar to a plastic bag) manufactured from durable clear polyethylene, has been engineered for maximum elasticity, flexibility, toughness, and resistance to splitting and tearing. Most commonly used for transferring large volumes of forced air to confined areas, such as water restoration projects, building renovations or other temporary applications.

CONSTRUCTION:

- 500' long
- PN 9500-500 fits up to 14" (35.5 cm) blowers
- PN 9600-500 fits 16" (40.6 cm) and 20" (50.8 cm) blowers
- Clear polyethylene
- Maximum elasticity, flexibility, toughness, resistance to splitting and tearing
- Not designed for permanent installations
- Collapses when airflow stops
- Unaffected by moisture and most chemicals
- Resistant to bacterial and fungal growth (suitable for use in food preparation areas)
- 41° F to 150° F (5° C to 65° C) temperature range

	9500-500	9600-500
Thickness	2 mil	4 mil
Diameter	14"	20"
Width lying flat	22"	32"
