

SPECIFICATIONS

Product Description: **BRACKETS**
 Part Number: **4110-04 AND 4111 SERIES**
 Style: **EBA AND DELUXE SCBA**

GENERAL DESCRIPTION:

Our EBA and Deluxe SCBA brackets are composed of a backplate, one spring clip (4110-04) or two spring clips (4111 series), a holding strap (4111 series only) and a footplate. All parts are constructed from durable steel that has been coated by a thermoplastic material that helps prevent rusting and damage to SCBA cylinders.

CONSTRUCTION:

- All bracket components are made from durable coated steel.
- Brackets have a powder-coat finish. Clips are coated with a specially formulated thermoplastic material. The coating prevents the steel surfaces from rusting and prevents damage to cylinders.
- The special coating provides a slippery finish (easier to remove cylinder); is much harder (less tendency to crack or peel off) and is more suitable for use with composite, Kevlar or carbon cylinders.
- Hardened high cycle spring steel clips (4111 series) are multi-layer coated and have been tested to over 50,000 cycles (on and off an air cylinder). Completely non-abrasive to the coating or air cylinder.
- Clips are engineered w/ unique rounded ends providing a smooth bearing surface to prevent gouging or marring of cylinders.
- Holding strap (4111 series only) is a 1" wide black nylon webbing fabric with buckle and retainer clip to help secure SCBA cylinders.

DIMENSIONS:

PN	Width	Height	Depth	Weight
4110-04	3" (7.6 cm)	14.5" (36.8 cm)	4.75" (12.1 cm)	1.75 lbs. (0.79 kg)
4111 Series	4" (10.1 cm)	20.5" (52.1 cm)	4.125" (10.5 cm)	4.5 lbs. (2.04 kg)

AVAILABLE:

EBA Bracket

4110-04 4 ¾" (12.0 cm) clip fits 5/10-minute EBA

Deluxe SCBA Bracket

4111-05 5 ¼" (13.3 cm) clip fits 30-minute, HP cylinder

4111-06 6 ¾" (17.1 cm) clip fits 30-minute, LP cylinder and 45-minute HP cylinder

4111-07 7 ¼" (18.4 cm) clip fits 60-minute, HP cylinder
