

SPECIFICATIONS

Product Description: **HOOD, SUPPLIED AIR**
 Part Number: **9911-10**
 Style: **DOUBLE BIB, FULLY DISPOSABLE TYVEK®**

GENERAL DESCRIPTION:

Made of poly-coated Tyvek material, this hood offers the increased protection of two bibs. The inner bib tucks inside protective garments so air flows down for a cooling effect on the body, and the outer bib secures under the arms with hook and loop to keep the hood from rising. The hood features an extra-large lens for better visibility. It offers the same convenient design with down tube and suspension built in, making the complete hood fully disposable. **NIOSH approved!**

HOOD:

- Poly-coated DuPont Tyvek
- Splash resistant hood and bibs
- Seams surged to seal in the air flow
- Generous size is ideal for workers with beards or goggles

SUSPENSION:

- Disposable one-piece assembly
- Absorbent foam headband
- Adjustable hook and loop closure head harness secures hood in place

DOWNTUBE:

- Multi-layer foam sound dampening system to prevent crushing and twisting during use
- Meets stringent NIOSH requirements for sound levels inside a hood
- Located behind the hood allowing it to be out of the way

LENS:

- Clear co-polyester, (PETG)15 mil, 6" x 12" (15.2 cm X 30.4 cm)
- Distortion-free with panoramic view

LENS PEEL OFFS: (PN 9910-25) *(optional)*

- Co-Polyester, clear film with adhesive backing, 5¼" x 11¼" (13.3 cm x 28.57 cm) (0.007" (0.017 cm) thick)
