

SPECIFICATIONS

Product Description: **ADJUSTABLE FLOW CONTROL VALVE**
Part Number: **9992**
Style: **HIGH PRESSURE CONTROLLER**

GENERAL DESCRIPTION:

The high-pressure Adjustable Flow Control Valve adjust air form any high-pressure air source for greater comfort. It meets NIOSH minimum flow requirements.

CONSTRUCTION:

Body: Brass with nylon threaded fitting
Plastic control valve
Fitting: Brass Hansen 1/4" (0.63 cm) plug
Belt: Nylon with aluminum clip assembly

BENEFITS:

- Offers large gripping handle making it easy to use with gloved hand
- Delivers the minimum flow at the lowest setting, required by NIOSH
- Requires an air supply pressure range from 20 to 50 psi
- Low profile, won't get in the way of work
